## **Common Sense Solutions Celebrates Its 20<sup>th</sup> Anniversary in Wealth Management and Financial Services**

**Atlanta, GA March 4, 2021:** This month, Common Sense Solutions celebrates 20 years of providing wealth management and financial services to clients in Atlanta, the Southeast, and around the world.

Since 2001, [Common Sense Solutions](#) has been successfully guiding clients and providing money management services, fiduciary services, and life management services. Working with seniors, high net-worth families, and professionals, Common Sense Solutions relieves the burdens associated with handling financial and life-planning issues that typically become more difficult with age.

“The ethical and capable oversight of our client’s private wealth management is central to everything we do,” shared Vivian Wright, Founder and President, “and that keeps us focused on our goal of serving and protecting those who need help managing their monetary affairs.”

Wright, a Certified Trust Financial Advisor, Registered Financial Gerontologist, and Daily Money Manager, founded Common Sense Solutions in 2001 after building a stellar career and reputation with leading wealth management groups like Wells Fargo, Bank of America, and SunTrust. The company has grown steadily in two decades and currently manages the cash flow of over \$300 million in client assets. Wright credits the growth to her team’s commitment to their company mission of upholding the internal controls and safeguard of a bank trust department with an emphasis on honesty, accountability, confidentiality, and fiduciary duty to serve the best interest of her clients.
